

Computer

Class 1 · Learn & Practise

Chapter 1: Computer – My Friend

Concepts explained simply · activities · exercises with answer keys

CHAPTER 1

Computer – My Friend

🎯 **In this chapter I will learn:**

- say what a computer is
- name places where computers are used
- know the types: desktop, laptop, tablet, smartphone

We all have friends to play and learn with. Let us meet a new friend – the **computer**! A computer is a smart electronic machine that helps us write, draw, play, learn and talk to people far away.

🎵 **Sing along:** Computer! Computer! Be my friend, our friendship will have no end. Computer! Computer! Let me write my name, let me play a game, let me draw the Sun, let me have some fun.

Places where we see computers

Place	What computers do there
🏠 Home	games, cartoons, online classes
🏫 School	teaching and learning
🏢 Office	typing, meetings, storing work
🏦 Bank	money details, ATM
🛒 Shops and malls	making bills
🍽️ Restaurants	orders and bills
✈️ Airport / 🚆 railway station	booking and showing tickets
🏥 Hospital	patient records

Types of computers

Desktop
Stays on a desk. Has separate parts – monitor, keyboard, mouse, CPU.

Laptop
Light and can be carried. Everything is in one folding body.

Tablet
Flat touch-screen computer. We touch the screen to work.

Smartphone
A phone that is also a small computer!

💡 **Wisdom Box** A smartphone is also a type of computer. An ATM is a computer too!

📘 **Word Master: computer** – an electronic machine that helps us work • **desktop** – a computer for a desk • **laptop** – a computer you can carry on your lap

Exercise 1.1: Where do we see computers?

Fill in the place.

1. We see desktops in use at _____ and in offices.
2. We buy tickets on computers at an _____ or railway station.
3. A bill is made on a computer in a _____.
4. Doctors keep patient records in a _____.

Exercise 1.2: Name the computer

Write: desktop, laptop, tablet or smartphone.
