

Computer

Class 1 · Learn & Practise

Complete Book – all chapters

Concepts explained simply · activities · exercises with answer keys

📖 Contents

🖥️	Chapter 1	**Computer – My Friend**
🤖	Chapter 2	**A Smart Machine**
🧰	Chapter 3	**A Handy Machine**
⌨️	Chapter 4	**Know My Friend – Parts of a Computer**
🔗	Chapter 5	**Connect with Computer**
✅	Chapter 6	**Do's and Don'ts of a Computer**
🏆	Chapter 7	**Revision Tests**

How to use this book. One chapter a week (20–25 minutes). Read together, point to the real thing (keyboard, mouse), let the child do the exercises, then check with the 🔑 answer key. Hands-on practice on a real computer is best.

CHAPTER 1

Computer – My Friend

🎯 **In this chapter I will learn:**

- say what a computer is
- name places where computers are used
- know the types: desktop, laptop, tablet, smartphone

We all have friends to play and learn with. Let us meet a new friend – the **computer**! A computer is a smart electronic machine that helps us write, draw, play, learn and talk to people far away.

🎵 **Sing along:** Computer! Computer! Be my friend, our friendship will have no end. Computer! Computer! Let me write my name, let me play a game, let me draw the Sun, let me have some fun.

Places where we see computers

Place	What computers do there
🏠 Home	games, cartoons, online classes
🏫 School	teaching and learning
🏢 Office	typing, meetings, storing work
🏦 Bank	money details, ATM
🛒 Shops and malls	making bills
🍽️ Restaurants	orders and bills
✈️ Airport / 🚆 railway station	booking and showing tickets
🏥 Hospital	patient records

Types of computers

Desktop
Stays on a desk. Has separate parts – monitor, keyboard, mouse, CPU.

Laptop
Light and can be carried. Everything is in one folding body.

Tablet
Flat touch-screen computer. We touch the screen to work.

Smartphone
A phone that is also a small computer!

💡 **Wisdom Box** A smartphone is also a type of computer. An ATM is a computer too!

📘 **Word Master: computer** – an electronic machine that helps us work • **desktop** – a computer for a desk • **laptop** – a computer you can carry on your lap

Exercise 1.1: Where do we see computers?

Fill in the place.

1. We see desktops in use at _____ and in offices.
2. We buy tickets on computers at an _____ or railway station.
3. A bill is made on a computer in a _____.
4. Doctors keep patient records in a _____.

Exercise 1.2: Name the computer

Write: desktop, laptop, tablet or smartphone.

1. Has a screen, keyboard and CPU on a desk → _____
2. Light and foldable → _____
3. Flat, touch screen → _____
4. A phone that works like a computer → _____

Exercise 1.3: True or false?

Write T or F.

1. A computer is our friend that helps us. _____
2. Computers are only used at home. _____
3. A smartphone is a type of computer. _____
4. A laptop cannot be carried. _____

🎨 **Fun with friends:** Draw a computer and colour it your favourite colours. Write MY COMPUTER on it.

👩‍🏫 **Parent / Teacher tip:** Point out computers outside – ATM, billing machine, ticket counter. Ask "What is this computer helping with?"

🔑 Answer key – Chapter 1: Computer – My Friend

Exercise 1.1: Where do we see computers?

1. home / school • **2.** airport • **3.** shop / restaurant • **4.** hospital

Exercise 1.2: Name the computer

1. desktop • **2.** laptop • **3.** tablet • **4.** smartphone

Exercise 1.3: True or false?

1. T • **2.** F • **3.** T • **4.** F

CHAPTER 2

A Smart Machine

🎯 **In this chapter I will learn:**

- say what a machine is
- know what makes machines work: fuel, electricity, people
- say why a computer is smart

A **machine** is a man-made thing that helps us do work easily. Some machines need **fuel** (petrol, diesel), some need **electricity**, and some work with **human power**.

Runs on fuel ⛽	Runs on electricity ⚡	Runs on human power 💪
car, bus, scooter	fan, TV, computer, washing machine	bicycle, pedal boat, hand pump

⭐ **Remember** The Sun, trees and rivers are **not** machines – they are not made by people.

Why is a computer a smart machine?

✅ It never gets tired. ✅ It never makes mistakes. ✅ It works very fast.
✅ It can store pictures, books, songs and movies. ✅ It does what we ask it to do.

📘 **Word Master: machine** – a man-made thing that helps us work • **fuel** – petrol, wood etc. that give power to machines

Exercise 2.1: Tick the machines

Write M for machine or N for not a machine.

1. Washing machine _____ **2.** Sun _____ **3.** Mixer _____

4. Tree _____ **5.** Smartphone _____ **6.** Moon _____

Exercise 2.2: True or false?

Write T or F.

1. A washing machine runs on fuel. _____

2. A smartphone is a machine as it makes our work easy. _____

3. The Sun is not a machine because it is not made by people. _____

4. A computer gets tired easily. _____

Exercise 2.3: Unjumble the letters

Write the word.

1. ULEF → _____

2. TSRAM → _____

3. IYLECETCRIT → _____

4. EMCANHI → _____

Exercise 2.4: Match what it runs on

(a) fuel (b) electricity (c) human power

1. Bus → _____

2. Fan → _____

3. Bicycle → _____

4. Computer → _____

Exercise 2.5: Answer

Write short answers.

1. Name two machines that run on electricity. _____

2. Name two machines that run on fuel. _____

3. Write two things that make a computer smart. _____

4. Name two things not made by people. _____

🔑 Answer key – Chapter 2: A Smart Machine

Exercise 2.1: Tick the machines

1. M • **2.** N • **3.** M • **4.** N • **5.** M • **6.** N

Exercise 2.2: True or false?

1. F (electricity) • **2.** T • **3.** T • **4.** F

Exercise 2.3: Unjumble the letters

1. FUEL • **2.** SMART • **3.** ELECTRICITY • **4.** MACHINE

Exercise 2.4: Match what it runs on

1. (a) • **2.** (b) • **3.** (c) • **4.** (b)

Exercise 2.5: Answer

1. fan, TV, computer… • **2.** car, bus… • **3.** never tires, never makes mistakes, works fast, stores a lot • **4.** Sun, trees, river…

CHAPTER 3

A Handy Machine

🎯 **In this chapter I will learn:**

- know how a computer helps me, my family and others
- know the benefits of a computer

A computer is very **handy** – it helps everyone in many ways.

Who?	How a computer helps
👧 Me	play games, listen to music, learn, type letters, draw and paint, attend online classes
👨‍👩‍👧‍👦 My family	pay bills, shop online, send emails and messages, attend meetings, book tickets, order food, store work
🏫 School	teaching and learning
📚 Library	keeping details of books issued and returned
✈️ Airport / Railway	booking tickets
🏥 Hospital	keeping details of patients
🛒 Shops / Restaurants	making bills
🚗 Vehicles	showing maps (GPS)
🏦 Bank	keeping details of money

Benefits of a computer

✔ It does not make mistakes. ✔ We can work faster. ✔ It saves our time. ✔ It can do different jobs.

💡 **Wisdom Box** An ATM is also a computer. We use it to take out and put in money.

Exercise 3.1: Match

Where is the computer used → for what? (a) teaching (b) booking tickets (c) patient details (d) making bills

1. School → _____

2. Railway station → _____

3. Hospital → _____

4. Shop → _____

Exercise 3.2: True or false?

Write T or F.

1. A computer saves our time. _____

2. A computer can only play games. _____

3. We can attend online classes on a computer. _____

4. Computers make a lot of mistakes. _____

Exercise 3.3: Tell me

Write one use.

1. One use of a computer for me: _____

2. One use for my parents: _____

3. One benefit of a computer: _____

🗣️ **Activity:** Ask at home – "What do you use a computer or phone for?" Draw two uses.

🔑 Answer key – Chapter 3: A Handy Machine

Exercise 3.1: Match

1. (a) • **2.** (b) • **3.** (c) • **4.** (d)

Exercise 3.2: True or false?

1. T • **2.** F • **3.** T • **4.** F

Exercise 3.3: Tell me

1. play / learn / draw… • **2.** pay bills / shop / office work • **3.** saves time / fast / no mistakes

CHAPTER 4

⌨️ Know My Friend – Parts of a Computer

🎯 **In this chapter I will learn:**

- name the main parts of a computer
- use the keyboard and mouse correctly
- know what data, memory and storage are

Like our body has parts, a computer has parts too. Each part has its own work. All parts are connected to the **CPU**.

🧠 **CPU (Central Processing Unit)**
The brain of the computer. It looks like a box and controls all the other parts.

🖥️ **Monitor**
Looks like a TV screen. It shows us what we do – videos, games, pictures.

⌨️ **Keyboard**
Many small buttons called keys. We type letters, numbers and words with it.

🖱️ **Mouse**
Helps us point, select, draw and play games. It moves the arrow (pointer) on the screen.

🔊 **Speakers**
Let us hear songs, music and sounds.

🖨️ **Printer**
Takes a print of our work on paper.

💡 **Wisdom Box** An all-in-one computer has the CPU inside the monitor.

The keyboard

Key type	How many	What for
Alphabet keys (A to Z)	26	typing words and sentences
Number keys (0 to 9)	10	typing numbers
Special keys	many	Spacebar (longest key), Enter, Backspace, Caps Lock …

Special key	What it does
Spacebar	gives space between two words – it is the longest key
Enter	moves the cursor to the next line
Backspace	erases the letter on the left of the cursor – the "eraser" key
Caps Lock	types capital letters (the light turns on)

Cursor = the bright blinking line that shows where you will type.

The mouse

Mouse action	What to do	What happens
Single click	press the left button once	selects an item
Double click	press the left button twice, quickly	opens an item
Right click	press the right button once	shows a list of commands
Drag and drop	hold the left button, move, then release	moves an item to a new place

Parts of a mouse: left button, right button, scroll wheel, wire (a wireless mouse has no wire). Hold the mouse gently, with your hand resting on it.

Data, memory and storage

Data is a collection of words, numbers, pictures or sounds. A computer keeps data safe in **storage devices**: hard disk, memory card, DVD and pen drive.

📘 **Word Master: connect** – to join together • **blink** – a light that goes on and off • **storage** – a place to keep things safe

Exercise 4.1: Name the parts

Which are parts of a computer? Write Y or N.

1. CPU _____ **2.** cat _____ **3.** keyboard _____ **4.** cupboard _____ **5.** mouse _____

6. blackboard _____ **7.** speaker _____ **8.** cooker _____ **9.** printer _____ **10.** monitor _____

Exercise 4.2: True or false?

Write T or F.

1. The CPU is the most important part of a computer. _____

2. The keyboard looks like a television. _____

3. The mouse helps us to point at items. _____

4. We can listen to a song through speakers. _____

5. The mouse can print what you see on the monitor. _____

Exercise 4.3: Choose the correct part

Keyboard, monitor, speaker or mouse?

1. Pari types a letter with the _____.

2. Vartika watches a cartoon on the _____.

3. Saurabh connects the _____ to play music.

4. I move the pointer using the _____.

Exercise 4.4: Unjumble the keys

Write the key name.

1. SRPAECBA → _____
2. REETN → _____
3. ABCACESPK → _____
4. SPAC KOCL → _____

Exercise 4.5: Space or Backspace?

Where should the cursor / space be? Write the new word(s).

1. Bedroom – press Space after d → _____
2. Pencilbox – Space after l → _____
3. Carpet – cursor after t, Backspace 3 times → _____
4. Jugnu – cursor after last u, Backspace 2 times → _____
5. Pink – cursor after k, Backspace once → _____

Exercise 4.6: Answer

Short answers.

1. Name the three types of keys. _____
2. Name three mouse actions. _____
3. Name three storage devices. _____
4. What is the blinking line that shows where to type? _____

🔎 **Mystery word:** Write the letter for each clue. 1 comes just after K; 2 first letter; 3 just before O; 4 between F and H; 5 after T and before V; 6 just before B; 7 just after F; 8 between D and F. The word is: **L A N G U A G E**.

👩‍🏫 **Parent / Teacher tip:** Let the child practise typing their name, then the names of the family. Use a mouse pad and teach the "light touch".

🔑 Answer key – Chapter 4: Know My Friend – Parts of a Computer

Exercise 4.1: Name the parts

1. Y • **2.** N • **3.** Y • **4.** N • **5.** Y • **6.** N • **7.** Y • **8.** N • **9.** Y • **10.** Y

Exercise 4.2: True or false?

1. T • **2.** F (monitor) • **3.** T • **4.** T • **5.** F (printer)

Exercise 4.3: Choose the correct part

1. keyboard • **2.** monitor • **3.** speaker • **4.** mouse

Exercise 4.4: Unjumble the keys

1. SPACEBAR • **2.** ENTER • **3.** BACKSPACE • **4.** CAPS LOCK

Exercise 4.5: Space or Backspace?

1. Bed room • **2.** Pencil box • **3.** Car • **4.** Jug • **5.** Pin

Exercise 4.6: Answer

1. alphabet, number, special • **2.** single click, double click, right click, drag and drop • **3.** hard disk, memory card, DVD, pen drive • **4.** cursor

CHAPTER 5

Connect with Computer

🎯 **In this chapter I will learn:**

- know the language a computer understands
- follow and give simple commands
- try coding and decoding fun

People speak many languages – Hindi, English, Tamil, French… A computer understands only **machine language**, made of just two numbers: **0** and **1**.

0 1 0 1 1 0 1 1 0

A **command** is an order. A **code** is a set of symbols that gives commands to a computer. Computers follow commands exactly – they cannot think on their own.

Coding fun – follow the commands

Command	Meaning
2 →	move 2 steps right
3 ↓	move 3 steps down
1 ←	move 1 step left
2 ↑	move 2 steps up

Decoding fun

A	B	C	D	E	F	G	H	I	J	K	L	M
1	2	3	4	5	6	7	8	9	10	11	12	13

N	O	P	Q	R	S	T	U	V	W	X	Y	Z
14	15	16	17	18	19	20	21	22	23	24	25	26

Solving a code is called **decoding**. Example: 8 5 12 12 15 = H E L L O.

📘 **Word Master: code** – symbols used for a message • **decode** – solve a code • **command** – an order • **connect** – join or link

Exercise 5.1: Languages

Which are languages? Write Y or N.

1. Hindi _____ **2.** speaker _____ **3.** Punjabi _____ **4.** mouse _____

5. German _____ **6.** Tamil _____ **7.** Math _____ **8.** French _____

Exercise 5.2: True or false?

Write T or F.

1. People around the world speak just one language. _____

2. A computer understands machine language. _____

3. Machine language uses only 0 and 1. _____

4. A computer thinks on its own. _____

Exercise 5.3: Unjumble

Write the word.

1. AMCIHEN → _____ (language of a computer)

2. ROCPMTUE → _____

3. MMOCDNAS → _____ (a computer follows them)

4. CDOEIDNG → _____ (solving a code)

Exercise 5.4: Decode

Use the key to find the word.

1. 8 5 12 12 15 → _____ **2.** 3 15 13 16 21 20 5 18 → _____

3. 20 8 5 → _____ **4.** 25 15 21 → _____

Exercise 5.5: Follow the commands

Start at the ★ and move. Where do you reach? (Write the number of steps in total.)

1. 2 → , 2 ↓ : total steps _____

2. 3 → , 1 ↑ , 2 ← : total steps _____

3. 1 ↓ , 1 → , 1 ↓ , 1 → : total steps _____

Exercise 5.6: Order the steps for washing hands

Write 1 to 5. (a) rinse (b) wet hands (c) dry with towel (d) rub 20 seconds (e) apply soap

1. (a) _____ **2.** (b) _____ **3.** (c) _____ **4.** (d) _____ **5.** (e) _____

How is a computer different from me?

Question	Computer	Me
Does it get tired?	No	Yes
Does it make mistakes?	No	Sometimes
Does it forget things?	No	Sometimes
Can it solve sums quickly?	Yes	With practice
Can it think on its own?	No	Yes! 🧠

🧠 **Who is smarter?** A computer follows our commands. Who gives the commands? **We do!** We are smarter because we can think.

👩‍🏫 **Parent / Teacher tip:** Play "Robot": the child gives commands (forward, turn left) to a parent who acts like a robot – and sees why exact commands matter.

🔑 Answer key – Chapter 5: Connect with Computer

Exercise 5.1: Languages

1. Y • **2.** N • **3.** Y • **4.** N • **5.** Y • **6.** Y • **7.** N • **8.** Y

Exercise 5.2: True or false?

1. F • **2.** T • **3.** T • **4.** F

Exercise 5.3: Unjumble

1. MACHINE • **2.** COMPUTER • **3.** COMMANDS • **4.** DECODING

Exercise 5.4: Decode

1. HELLO • **2.** COMPUTER • **3.** THE • **4.** YOU

Exercise 5.5: Follow the commands

1. 4 • **2.** 6 • **3.** 4

Exercise 5.6: Order the steps for washing hands

1. 4 • **2.** 1 • **3.** 5 • **4.** 3 • **5.** 2

CHAPTER 6

✅ Do's and Don'ts of a Computer

🎯 **In this chapter I will learn:**

- look after the computer
- use the computer safely
- follow rules while using a computer

We love our friends and take care of them. Let us take care of our friend, the computer.

✅ Do

- Keep the computer clean and dry.
- Press the keys gently.
- Use the mouse on a mouse pad.
- Sit straight in front of the computer.
- Take turns in school.
- Take permission and help from elders or teachers.
- Use headphones so you do not disturb others.

❌ Don't

- Don't eat or drink near a computer.
- Never touch the mouse or keyboard with dirty hands.
- Never sit very close to the screen.
- Don't play with the wires.
- Don't keep the sound loud.
- Don't put a pencil or ruler into the computer.
- Never switch off directly from the main power button.

📘 **Word Master: do's** – things we should do • **don'ts** – things we should not do • **gently** – softly • **permission** – asking before doing • **disturb** – to trouble

Exercise 6.1: True or false?

Write T or F.

1. You should eat and drink near a computer. _____

2. You should keep a computer clean. _____

3. You should play with computer wires. _____

4. You should sit very close to a computer. _____

Exercise 6.2: Fill in the blanks

Words: gently, dry, loud, turns

1. Keep the computer clean and _____.

2. Press the keys of the keyboard _____.

3. Do not play _____ music.

4. In school, we should take _____ to use the computer.

Exercise 6.3: Choose the correct option

1. Rishi is playing games. He should keep the sound (loud / low). _____

2. Akansha is typing. She should press the keys (hard / gently). _____

3. Neha wants to clean the computer. She should use a (dry / wet) cloth.

_____

4. Sharing is a (good / bad) habit. _____

Exercise 6.4: Do or Don't?

Write DO or DON'T.

1. Sit straight in front of the computer _____

2. Touch the wires _____

3. Press keys hard _____

4. Ask elders for help _____

Exercise 6.5: Answer

1. Write one thing you should do. _____
2. Write one thing you should not do. _____
3. How should we sit in front of a computer? _____
4. Whom should we ask for help? _____

📝 **Class rules:** With your friends, make 3 Do's and 3 Don'ts for your classroom computer. Write them on a chart.

🔑 Answer key – Chapter 6: Do's and Don'ts of a Computer

Exercise 6.1: True or false?

1. F • **2.** T • **3.** F • **4.** F

Exercise 6.2: Fill in the blanks

1. dry • **2.** gently • **3.** loud • **4.** turns

Exercise 6.3: Choose the correct option

1. low • **2.** gently • **3.** dry • **4.** good

Exercise 6.4: Do or Don't?

1. DO • **2.** DON'T • **3.** DON'T • **4.** DO

Exercise 6.5: Answer

1. any correct do • **2.** any correct don't • **3.** straight • **4.** elders or teachers

CHAPTER 7

Revision Tests

🎯 **In this chapter I will learn:**

- check what I have learnt

Exercise 7.1: Test 1 – Basics

10 marks.

1. A computer is an _____ machine.

2. Name one type of computer. _____

3. The brain of the computer is the _____.

4. We see pictures and videos on the _____.

5. We type with the _____.

6. We point and click with the _____.

7. We hear sounds through _____.

8. A printer takes a _____ on paper.

9. The longest key is the _____.

10. Machine language has _____ and _____.

Exercise 7.2: Test 2 – Uses & rules

10 marks.

1. A computer saves our _____.

2. Banks keep money details on a _____.

3. Name a storage device. _____

4. A computer follows our _____.

5. Solving a code is called _____.

6. Eating near a computer is a _____ (do / don't).

7. Keys should be pressed _____.

8. Press Enter to go to the next _____.

9. Backspace erases the letter on the _____.

10. Double click _____ an item.

Computer Star Certificate

This is to say that _____ has completed Class 1 Computer!

Date: _____

🔑 Answer key – Chapter 7: Revision Tests

Exercise 7.1: Test 1 – Basics

1. electronic • **2.** desktop / laptop / tablet / smartphone • **3.** CPU • **4.** monitor • **5.** keyboard • **6.** mouse • **7.** speakers • **8.** print • **9.** spacebar • **10.** 0 and 1

Exercise 7.2: Test 2 – Uses & rules

1. time • **2.** computer • **3.** pen drive / hard disk / memory card / DVD • **4.** commands • **5.** decoding • **6.** don't • **7.** gently • **8.** line • **9.** left • **10.** opens

📚 Word Bank

Word	Meaning
Computer	an electronic machine
Machine	a man-made thing that helps us work
CPU	brain of the computer
Monitor	screen that shows work
Keyboard	keys for typing
Mouse	pointing device
Cursor	blinking line where you type
Data	words, numbers, pictures or sounds
Storage	place to keep data safe
Command	an order to a computer
Code	symbols that give commands
Decode	to solve a code

🌟 Appendix — Best Resources

Type	What & why	Where
Site	**Code.org — Hour of Code**: free beginner coding puzzles with drag-and-drop blocks	code.org
App	**ScratchJr**: free app to make your own stories and games for ages 5–7	scratchjr.org
Site	**CS Unplugged**: computer-science activities without a computer (great for "robot" games)	csunplugged.org
Site	**BBC Dance Mat Typing**: friendly typing lessons for kids	search "BBC Dance Mat Typing"
Software	**Tux Paint**: free paint program designed for young children	tuxpaint.org
App	**Khan Academy Kids**: free early learning app	app stores
Portal	**DIKSHA**: government learning portal with lessons and videos	diksha.gov.in
At home	Paper keyboard (draw keys), cardboard monitor, "robot" commands game	make with paper

> **Screen-time tip:** 20–30 minutes at a time, sitting straight, screen at eye level, with an adult nearby. Names and websites change; search by the name shown.

🎯 Five-minute activities

1. **Name the part:** point to monitor, keyboard, mouse and say its job.
2. **Type your name:** use Shift/Caps Lock for the first letter.
3. **Robot game:** give exact commands — "2 steps forward, turn left".
4. **Secret code:** write your name in numbers (A=1, B=2…).
5. **Computer or not?** look around the house and sort machines.
