Family

A family is a group of people who live together, love and help each other. Home is our **first place of learning**. Family members teach us to grow up as good people.

Types of families

Type	Who lives together
Small family	father, mother and children
Single-parent family	one parent (mother or father) with child/children
Big (joint) family	grandparents, uncles, aunts, cousins, all together

⭐ **Remember** Big or small, **each family is special**. A pet dog can be part of the family too!

Surname

Most family members share a last name after the first name – called the **surname**. In **Zoya Sharma**, Zoya is the first name and Sharma is the surname.

Fun together

Families eat together, cook together, play games, go on picnics, visit relatives, pray, celebrate birthdays and share happiness and sorrow.

Celebrations

We celebrate birthdays, weddings, housewarming parties and **festivals**. Festivals help us understand our culture and bring people closer. Bharat is a land of festivals: Holi, Dussehra, Diwali, Eid, Christmas, Gurpurab; harvest festivals: Pongal, Onam, Baisakhi.
