CHAPTER 11

Measurement

🎯 **In this chapter I will learn:**

- compare length, height, weight and capacity
- measure with hand spans, foot spans and crayons
- order things from shortest to longest

Comparing things

We say	Words	Example
Length	long / longer / longest, short / shorter / shortest	pencil vs. crayon
Height	tall / taller / tallest	giraffe 🦒 vs. rabbit 🐇
Thickness	thick / thicker, thin / thinner	a dictionary vs. a notebook
Weight	heavy / heavier, light / lighter	elephant 🐘 vs. feather 🪶
Capacity	full, half, empty, holds more / less	a bucket vs. a cup

Measuring with non-standard units

We can measure with our **hand span** 🖐, **foot span** 🦶 or **crayons** 🖍. Put them end to end, with no gaps, and count.

⭐ **Remember** Use the **same unit** to compare. My hand is bigger than yours, so we must both use the same crayon!
