📎 Appendix A – Tables 1 to 20

Class 1 needs tables 2–10. Tables 11–20 are a bonus for curious minds. Tip: tables of 11 → 11, 22, 33 … (repeat the digit!). Table of 20 → just double the table of 2 and add a zero.

🌟 Appendix B – Best Resources

Type	What & why	Where
Book	NCERT **Math-Magic, Class 1** – the official textbook; free PDF and chapter videos	ncert.nic.in → Textbook
App / site	**DIKSHA** – government learning portal; QR-coded lessons, videos, worksheets	diksha.gov.in
App	**Khan Academy Kids** – free, ad-free early maths, reading, stories	khankids.ai / app stores
Site	**Math Playground** – free games for counting, addition, subtraction, patterns	mathplayground.com
Site	**Topmarks** – free interactive number lines, hundred squares, shape sorters	topmarks.co.uk
Video	**Numberblocks** (BBC CBeebies) – numbers 1–100 as friendly characters	cbeebies.com / YouTube
Video	**Maths songs** – skip-counting and times-table songs on YouTube kids channels	search "skip counting 2 5 10"
At home	Ten-frame, hundred chart, dice, playing cards, buttons, ice-cream sticks bundles, a number line on the floor	make with paper
Game	Dominoes, Ludo, snakes & ladders, "shop" role-play with toy money – real maths in play	family time

Rule of thumb: 15–20 minutes a day beats 2 hours on Sunday. Use real things first (buttons, fruits), pictures next, numbers last. Praise effort, not speed. Names and websites change; search by the name shown.

🎯 Five-minute daily games

1. **Number of the day:** one more, one less, 10 more, 10 less, tens and ones.
2. **Dice race:** roll two dice, add, then subtract the small from the big.
3. **Shop:** items cost 5, 10, 20 rupees – pay and find change.
4. **Skip-count walk:** take 2, 5 or 10 steps at a time up the stairs.
5. **Shape hunt:** find a cube, cylinder, cone and sphere in the kitchen.
